PROFESSIONAL REFERENCE

The collaboration of SAJSOFT Piotr Bochnak with Auto-Elements Maria i Adrian Sklorz GP started in 2013 and has been problem-free since.

SAJSOFT is chiefly responsible for the implementation and creation of software which also involves integration with external solutions. Software created by SAJSOFT to date facilitates our company's work on many levels - from storage rooms to marketing or management processes.

Applications are easy to use and fully meet our expectations.

SAJSOFT's area of expertise includes database administration and IT support in the usage of software created by other companies.

Both the management board of Auto-Elements and its employees are satisfied with SAJSOFT and consider them recommendable.
